

PLEDGE IN SUPPORT OF LOCAL ZONING
October 2022
CT169Strong.org

As a candidate for public office in the State of Connecticut, I, Robert Hebert,
pledge my support of local planning and zoning commissions to appropriately decide
land use policies and related regulations.

I pledge my support of local planning and zoning commissions as they are in the best
position, in conjunction with input from local residents, to fairly and impartially decide
land use matters by taking into account the needs of all residents of the municipality, the
unique nature of the specific property, related environmental factors and the
corresponding resources that are available to support smart, rational and inclusive
development for all.

I will publicly, through the media and my own communications vehicles, inform residents
of the provisions that are in all housing, planning, zoning and development bills being
considered in the legislature and of public hearings being held on any such bills.

I pledge to testify and submit legislation that supports local control and reformation of
state statute 8-30g, Affordable Housing Land Use Appeals Procedure.

I will support legislation that empowers our local communities and individuals and that
values the uniqueness of Connecticut's 169 towns and cities including but not limited to
built environment, existing infrastructure, history, natural resources, and environmental
issues.
